

XIth Heloise Workshop: Paris, 12-13th of May 2022

Digital Academic History and the Challenge of Uncertainty

Thursday, the 12th of May		CNAM, 2 rue Conté 75003 - room Salle des Conseils, access 37, 1st floor, left-hand side	
9:30-10:00	Welcoming / breakfast		
10:00-11:00 Introductory talks	Uncertainty in Studium Parisense database	Jean-Philippe Genet	
	The paradox of the uncertainty's certainty. Revisiting the Heisenberg principle in the scope of digital academic history.	Hermenegildo Fernandes, Armando Norte	
11:00-11:15	Coffee break		
11:15-12:45 Heloise work. Session 1 Modeling uncertainty	A generic conceptual model for uncertain prosopographical data	Jacky Akoka, Isabelle Comyn-Wattiau, Stéphane Lamassé and Cedric du Mouza	
	At the origins of the databases: the data, their interpretation and representation. Solutions adopted in "Onomasticon. Prosopography of the University of Perugia"	Stefania Zucchini	
	Index Scholares Portugalensis»: a database about Portuguese scholars (13th-16th centuries). A Digital Map of Uncertainties and Solutions for Academic History	Rui Rochas	
12:45-14:15	Lunch at CNAM's Salon d'Honneur		
14:15-15:45 Heloise work. Session 2 Detecting uncertainty	Uncertainty Detection in Historical Databases	Wissam Maamar Kouadri, Jacky Akoka, Isabelle Comyn-Wattiau, Cedric du Mouza	
	A Question of Attribution: Tackling Uncertainty in Historical Bibliography	Alessandra Panzanelli Fratoni	
	Using Referential Dating in nodegoat to Capture Various Levels of Uncertainty	Geert Kessel, Pim van Bree,	
15:45-16:00	Coffee break		
16:00-17:00 Heloise work. Session 3 Visualizing uncertainty	Visualizing individual interactions and moves	Fati Chen, Pascal Poncelet	
	Modèles, outils d'acquisition, de recherche et de visualisation de bases de données spatiotemporelles prenant en compte l'incertitude chronologique	Remi Crouzevialle, Juliette Morel	

Friday, the 13th of May		Meeting point: Entrance Pantheon, Place du Pantheon, 75005 Paris (participants will be picked up and guided to the meeting room)	
09:30-09:30	Welcoming / breakfast		
09:30-11:00 Heloise work. Session 4 Tools and solutions (I)	Dealing with uncertainty with Navigocorpus database : false, unlike, dubious, and contradictory declarations of destinations in 18th-century documents related to ships	Christine Plumejeaud, Silvia Marzagalli	
	Mapping uncertainties in the database of the Repertorium Academicum Germanicum : (RAG): Methodological considerations and practical applications	Kaspar Gubler	
	Reducing uncertainty by exploiting networks of individuals	Stéphane Lamassé, Cédric du Mouza	
11:00-11:30	Coffee break		
11:30-12:30 Heloise work. Session 4 Tools and solutions (II)	Aggregation of uncertainty for fact reconciliation	Victor David, Raphaël Fournier S'niehotta, Nicolas Travers	
	Progresses and development through cooperation and interoperability. 'Onomasticon. Prosopografia dell'Università degli Studi di Perugia' and 'IVS Commune online'	Stefania Zucchini, Alessandra Panzanelli	
12:30-14:15	Lunch in a nice place to be announced		
14:15-15:45 - Heloise talks	State of art, the Diccionario de catedráticos españoles de derecho	Javier Carlos Díaz Rico, Manuel Martínez Neira	
	Alternative uses of an on-line Biographical Dictionary: the elite college students of Imperial Spain	Damaso de Lario	
	Family structures of university professors in Salamanca at the end of the Renaissance.	Francisco Javier Rubio Muñoz	
15:45-18:00	Meeting of the Heloise Board	or Free time	
18:00	End of 2022 Heloise meeting in Paris
